| <ul style="list-style-type: none"><li>Completed a 10-week virtual internship in Java Full Stack Development, gaining practical exposure to frontend, backend, database, and web application development.</li><li>Developed and worked with Java-based backend technologies, applying object-oriented programming and core Java concepts to application development.</li><li>Gained hands-on exposure to HTML, CSS, JavaScript, Java, SQL, and web application development.</li><li>Applied software development concepts including REST APIs, MVC architecture, debugging, and application testing</li></ul> |                                                |

## Projects

- Expense Tracker** | – *MongoDB, Express.js, React.js, Node.js*
- Built a full-stack expense tracking web app with user authentication, income/expense logging, and category-wise breakdown.
  - Designed an interactive React dashboard with real-time charts to visualize spending patterns and monthly summaries.
  - Implemented RESTful APIs with Express.js and Node.js, backed by MongoDB for flexible transaction data storage.
- College ERP Software** | *HTML, CSS, JavaScript, React.Js, MongoDB*
- Developed a full-stack web application to manage students, faculty, courses, attendance, and exams efficiently.
  - Implemented role-based dashboards for Admin, Faculty, and Students with secure access control.
  - Built RESTful APIs using Node.js and Express.js, with MongoDB for data storage.
- Online Event Booking and Management System** | *HTML, CSS, JavaScript, React.JS, Node.Js, Express.Js, MongoDB*
- Built a full-stack web application enabling users to browse events, view event details, register/login, and book available events online.
  - Built backend APIs using Node.js and Express.js to handle user authentication, event management, and booking operations.
  - Implemented CRUD operations, validation, and booking workflows to manage event availability and user bookings.

## Technical Skills

**Languages:** C, C++, Java, JavaScript, SQL  
**Frameworks & Technologies:** REST API, HTML, CSS, React.Js, Node.Js, Express.Js.  
**Database:** MySQL, MongoDB  
**Tools:** Git/GitHub, VS Code, IntelliJ IDE  
**Methodologies:** SDLC, Agile, Scrum, Version Control

## Certifications

- Infosys Springboot** Certification on **Java Concepts**
- EduSkills Academy** Certification on **Java Full Stack Development**

## Involvement & Achievements

**Cricket Tournament** | *2x Champion of Iconic Cricket Tournament Organised by CS department.*  
**Kannada Kalotsava Club** | *Participated in quiz competitions and Debate Competition.*
